

Customized Mobile Apps

Configured by a Reliable Controls
Authorized Dealer, the myControl®
mobile app offers fully customized mobile
interfaces to your Reliable Controls
MACH-System.

Tech Specs

Recommended Operating Systems

- Android 2.3.3 or higher
- iOS 6.0 or higher

App Stores

- Google Play
- Apple App Store

Template

- Requires myControl configuration template

Features

Multiple Views

- Choose the app view that's right for you. Current app views include SPACEview, LISTview, and STATview
- The number of views configured within the myControl app is limited only by the memory of the mobile device

Fully Customizable

- Any configurable point from anywhere in the MACH-System can be accessed from the myControl app. (See configurable points specific to each View below.)

Popular Mobile Support

- Android devices
- Apple devices

Backward compatibility

- Able to interface to any existing MACH-System networked to a MACH-ProWeb™ controller
- Connections by the app are authenticated using MACH-ProWeb web users

Configurable Themes

- Choose from five different themes for your mobile device: normal, high contrast, black, green, and blue sky

Ordering

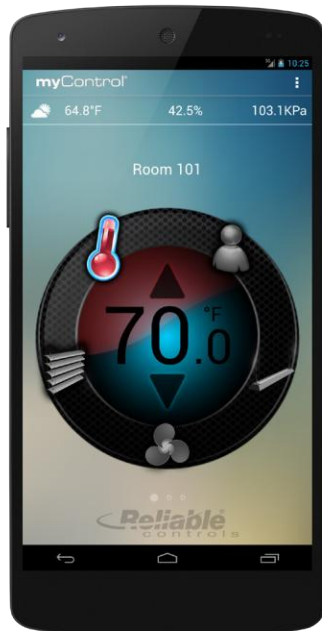

Contact your local Reliable Controls Authorized Dealer to configure your MACH-System for myControl app graphics and access credentials.

APP VIEWS

iOS

Android

SPACEview

Allows up to 9 points to be configured in a simple and sleek interface. Configurable points include:

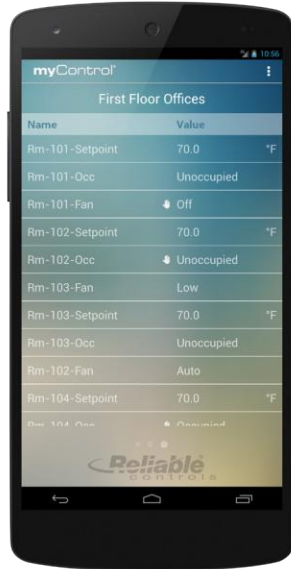

- Space temperature and setpoint
- Occupancy mode
